Lund University Urban Arena

A new interdisciplinary initiative within Lund University with the aim to strengthen and communicate research on urban sustainable transformation.

Lund University Urban Arena – Research areas

- Urban design and governance
- Urban innovation and economic growth
- Urban social interaction
- Urban culture and consumption
- Urban energy, water, waste and climate change
- Urban building design
- Urban transport and mobility
- Urban green space
- Sustainable urban development in developing and transitional countries

We formulate the key questions for further development and research!
